KEEP BRAIN CLEAR AND BODY PROTECTED

Protection against Electromog

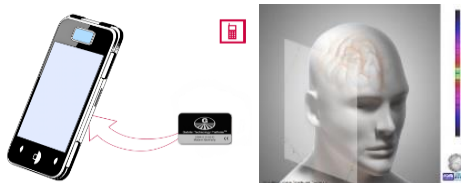

By eletromagnetic radiation, the frequency bands Alpha, Beta and Gamma are activated in the brain. This may have an impact on psychic and cognitive functions, such as human concentration and health.

The GABRIEL chip changes the information of electromagnetic radiation at atomic level and measurably reduces the stress activity in the brain.

Successful de-interference of electromog

- Measurable reduction of stress activity in the brain
- International scientific recognition
- The quality management of Gabriel-Tech is ISO 9001-2015 TÜV certified
- Easy attachment to devices
- Unlimited durability

PROTECT

yourself, your family, government and companies
employees, soldiers and police officers
